

Maintain Your Human Resource Certification Using AgLearn!

What is Human Resource certification?

Human Resource certification demonstrates expertise of the HR body of knowledge, which is a standard set of six functional areas recognized by human resource professionals. Using AgLearn you can maintain two different certifications: PHR (Professional in Human Resources) and SPHR (Senior Professional in Human Resources). To access PHR or SPHR courses, go to the Business Certifications section of the AgLearn catalog and click on the *Human Resource Certification Institute (HRCI)* link.
